

# Power wallpaper paste Vlies Non-woven

**Instructions for use:** *Power Paste Non-woven* is suitable for all dry-strippable wallpapers as non-woven wallpapers and all similar wall coverings.

**Technical specifications:**

Components:	Starch ether, methylcellulose, polyvinyl acetate powder
Density:	approx. 0.50 g/cm <sup>3</sup>
pH-value:	approx. 8
Solubility:	Ready for use after approx. 30 minutes
Usage:	approx. 200 ml/m <sup>2</sup>

**Surface preparation:** The surface must be dry, firm, and dust and grease-free. Remove old, peeling wallpapers and distempers using *decotric Wallpaper Remover*. Make good cracks and holes using *decofill Interior* or *decomur Super Bonding Filler*. Pre-treat highly absorbent, sanding and chalking surfaces using *decotric Deeply Penetrating Primer – Solvent Free*. Water-soluble contaminations in the surface, which could show through when wallpapered over, should be isolated using *decotric Insulating Spray*. We recommend a first coat with *decotric Wallpaper Primer white* if hanging highly translucent wallpapers and where surfaces are highly contrasting.

**Application:** Stirring vigorously, sprinkle *Power Paste non-woven* into clean, cold water and continue to stir for a few minutes. Leave for approx. 30 minutes and then stir vigorously again.

**Applying to wallpaper:**

Evenly coat the wallpaper with *Power Paste Non-woven* and fold the pasted ends together. After leaving to soften for sufficient time, hang the wallpaper with matching seams and press down.

**Applying to the surface:**

Use a lambs wool roller to evenly apply the mixed *Power Paste Non-woven* to the surface over a width of 1-2 wallpaper widths. Place the wallpaper strip directly into the fresh adhesive bed and uniformly press down.

Always observe the wallpaper manufacturer's instructions for use.

Do not use if the surface and room temperature are below + 5° Celsius!  
 Remove adhesive residues using a damp cloth.  
 Clean tools in water after use.

**Mixing ratio:**

for	Mixing ratio	Quantity of water per 200-g packet	Coverage of a 200-g packet
Pre-pasting	1:50	10 l	60-80 m <sup>2</sup>
Non woven wallpapers – for applying onto the wall or to the wallpaper	1:20	4 l	20-25 m <sup>2</sup>

**Storage:** Store in a cool and dry place!

**Available size:** 200 g collapsible box 000502173

**Minimum durability:** 5 years as of date of manufacture
