

Power wallpaper paste Universal

Instructions for use: *Power Wallpaper Paste Universal* is suitable for pasting all paper-backed and heavy wallpapers, vinyl wallpapers, also for dry-strippable wallpapers as non-woven.

Technical specifications:

Components:	Starch ether, polyvinyl acetate powder
Density:	approx. 0.35 g/cm ³
pH-value:	approx. 9
Solubility:	Ready for use after 5 minutes
Usage:	approx. 200 ml/m ²

Surface preparation: The surface must be dry, firm, and dust and grease-free. Remove old, peeling wallpapers and distempers using *decotric Wallpaper Remover*. Make good cracks and holes using *decofill Interior* or *decomur Super Bonding Filler*. Pre-treat highly absorbent, sanding and chalking surfaces using *decotric Deeply Penetrating Primer – Solvent Free*. Water-soluble contaminations in the surface, which could show through when wallpapered over, should be isolated using *decotric Insulating Spray*. We recommend a first coat with *decotric Wallpaper Primer white* if hanging highly translucent wallpapers and where surfaces are highly contrasting.

Application: Stirring vigorously, sprinkle *Power Universal* into clean, cold water and continue to stir for a few minutes. Leave for 5 minutes and then stir vigorously again.

Applying to wallpaper:

Evenly coat the wallpaper with ready mixed paste and fold the pasted ends together. After leaving to soften for sufficient time, hang the wallpaper with matching seams and press down.

Applying to the surface:

Use a lamb's wool roller to evenly apply the mixed paste to the surface over a width of 1-2 wallpaper widths. Place the wallpaper strip directly into the fresh adhesive bed and uniformly press down.

Always observe the wallpaper manufacturer's instructions for use.

We recommend to add 2 x 750 g *decotric Wallpaper and Border Adhesive* per 500 g packet for use on hardly absorbent surfaces and to increase the moisture resistance.

Do not use if the surface and room temperature are below + 5° Celsius!

Remove adhesive residues using a damp cloth.

Clean tools in water after use.

Mixing ratio:

for	Mixing ratio	Quantity of water per 500-g packet	Coverage of a 500-g packet
Pre-pasting	1:40	8 l	40-44 m ²
All types of light paper backed wallpapers	1:30	6 l	approx. 30 m ² 6 rolls
All types of heavy weight wallpapers	1:20	4 l	20-22 m ² 4-5 rolls

Storage: Store in a cool and dry place!

Available sizes:

100 g box	022110026
200 g box	022101026
500 g box	022104026
1 kg box	022105026
10 kg bag	022106026

Minimum durability: 5 years as of date of manufacture
